I'll check and see if I got the handout and if I find it I'll bring it to you to be scanned.

Thanks,

Mario

Marian,

I have sent a request to have IT pull your emails with Vigilant for this. If you do have the handouts at home, would you please bring them tomorrow since I am unsure at this time if Mario has his copy still.

Thank you for everything you sent me.

Thank you,
Katherine Wilkinson

Subject: RE: Open Records Request - Regarding Facial Recognition Software

What exactly do you need? Someone will have to get IT to do a search of my e-mails for 'facial rec' because there are dozens (probably close to 200 between Vigilant and me for various things concerning the system plus the ones internally).

I don't know what they want concerning training. I probably have the handouts they gave us in training but I'll have to check at home. Mario may have his. I've attached the course outline & instructor bios.

I attached the agreement we have with Vigilant. Janci has the original copy.

I'm not sure what else I can provide.

Subject: Open Records Request - Regarding Facial Recognition Software

All,

We have received the attached Open Records request for records involving Facial Recognition Technology. The request covers everything from unsolicited marketing materials, meetings, emails, contracts, policies, trainings, etc. Please forward me a copy of all records(digital and print) pertaining to any Facial Recognition Technology as soon as possible since we are on a deadline to submit to the AG. (This would include the LPR system since it has facial recognition) If you know of anyone that would have responsive documents for this ORR, please forward to them and let me know.

Thank you,
Katherine Wilkinson
